# WE IN THE PRESS

# BEST FOREST PRODUCTS COMPANY OF THE YEAR

The company, which spent 2023 productively with both domestic and international projects, has undertaken important projects with its business partners in areas such as the production and supply of imported and domestic plywood, OSB board H20 and kontrplak, in addition to construction timber types.

In addition, the company made a great contribution to the customer experience by delivering its products safely and on time with the Alor Logistics brand it established within itself. Thereupon, the company added a great source of pride to its history by being selected as the best Forest Products company within the scope of the 100th Anniversary Economy and Project Awards. The company, which has strengthened its place in the sector with its first quality products, experienced team and wide portfolio of happy customers, continues to add success to its successes.

# WE ARE TRANSFORMING CITIES!

We are with you as a solution partner in the construction process of earthquake-resistant buildings within the scope of Urban Transformation, especially in TOKI projects. As Alor Forest Products, we continue to transform cities in earthquake zones and earthquake risk areas.

# SUSTAINABLE NATURE

The First Name That Comes to Mind When It Comes to Sustainability, Reliability and Quality: Alor Forest Products

Alor Forest Products, one of the biggest solution partners of construction projects all over Turkey, carries out all its operations with the permissions of the Ministry of Forestry and the General Directorate, within the framework of the laws of the Republic of Turkey. The company, which provides the necessary support to many nature conservation foundations, especially the Turkish Foundation for Combating Erosion, Afforestation and Protection of Natural Assets (TEMA) every year, is also among the great supporters of the sustainable ecological system. The company demonstrates its reliability in the sector with the many services, quality and trust certificates it provides. In this context, Alor Forest Products is among the reliable stakeholders in many sectors as well as the construction sector.

As a result of the Kahramanmaraş-centered earthquakes that occurred on February 6, Alor Forest Products, which made all its support efforts for the development of the region, contributed to the important works in the earthquake region with the quality products it produced.
